CLEVELAND BIBLE SOCIETY.

CITY NEWS.

Twelfth Auniversary Exercises Offi-cers for the Coming Year-Reports -Statistics.

The Twelfth Anniversary of the Cleveland Bible Society was celebrated at the Second Presbyterian Church Sunday evening. The vening services of most of the other churches in the city, were omitted in anticipation of the interesting unniversary exrises, and even the galleries of the Sec ond Presbyterian church were filled to the utmost capacity. The services were opened by a voluntary from the choir, reading of the scriptures by Prof. J. A. Thome, and prayer by Rev. E. S. Gillett. On motion Messrs. E. R. Perkine, Jno. A.

Poote and Orson Spancer were appointed a cominating committee by the chair. Th ommittee reported the following nomina ions which were accepted and adopted by the Society :

President-James M. Hoyt. Vice Presidents-The Pasters of all co operating churches.

Corresponding Secretary T. Dwight Fells.

Recording Secretary E. F. Young.

Treasurer Dun P. Eells.

Directors—Joseph Perkins, Saunuel Foliambe, Horace Benton, B. Rouse, H. B.

Auditor-Samuel H. Mather The report of the Treasurer, Pap. P. Eells eq, was read and adopted. The most important statements contained in it will be

found in the report of the Executive Com-The report of Mr. T. D. Eelis, the Corres onding Secretary is of much interest, and we publish it in full.

REPORT OF THE EXECUTIVE COMMITTEE. In presenting their twelfth annual report the Executive Committee of the Cleveland Bible Society have especial cause for grati-tude to Him " who crowneth the year with in goodness. At no period of its history as the guiding and featering hand of our leayenty Father been more manifest in the irection of its affairs, and at no period have we received greater encouragement to in-creased carnestness in our mission in the accompanying influences of the Holy Spirit, which have suring the last few months in such a wonderful manner made the "word uch a wonderful manner made the "word f life," which we circulate, "the power of lod unte salvation," and so many who have departments, the Public Schools, Infirmary

The detailed account of the receipts and expenditures of the Society during the year, and the su tement of its present bnanal condition are presented in the report of the Treasurer. The amount of collections of from churches has been \$251.65, from town age ship societies, \$1,191.65, from individual contributions, \$736.61. Total, \$2,345.60, of Amount of sales of books to February 1st, \$2,253.31; amount of books dousted by Society estimated at \$1,200; amount of to books on hand and sales since February 1st, \$2,200; amount now due the American Bible Society, about \$1,500; amount of cash tu treasury, \$2,108. The Society has no in trenaury, \$516.38. The Society has no other inslebtedness than that to the Amer-

an Bible Society.

The Depository of the Society was removed in February last to a new book ore, designed to be of a more distinctly. he city by Mesers Holden, Clarke & Wil-on. In making this change, the commit-ee are unwilling by any implication to letrest in any degree from the large and freasing business in the sales of religious ooks, which they are glad to know has nd a more particular attention on the part of our depositaries to the supply and sale of them than we could reasonably expect when they are merged in the stock of a large and miscellaneous hook store. Ample security has ben given by the new de-positories for the faithful discharge of their duties as such, and a strict gud proper an-countability for all property of the Scolety

which may be placed in their hamis. The most important feature in the ope-ions of the Society during the past we \*\*Sold by all Wholesale \*\* 's chail Dealers to Medicine.

John L. Hunnewell, Proprietor, Practical Chemics, and perhaps during its entire history, is the very extensive and thorough canvass of the city which the Executive Dominitos delermined upon in Pebruary and line just accomplished, with the and and superrutes discovering the new count, it now offered to the afficient throughout he country, they having teen proved by the test is determined upon in Pebruary and line just accomplished, with the and and superrutes discovering the past year, and perhaps during its entire history, is the very extensive and thorough canvass of the city which the Executive Dominitos history, is the very extensive and thorough canvass of the city which the Executive Dominitos history, is the very extensive and thorough canvass of the city which the Executive Dominitos distortion in the ci In determining upon the character and ex-tent of this canvass, the great object of the merits have become a well known as the tree m which, in part, it derives its virtues. The of God within the reach of every individual of our population who was willing to account

possible the various elements, religious and irreligious, in our solial condition, as bearing upon the great work which it is the mission of the bible to accomplish. The canvass was commenced early in April, and has occupied the time of Mr. Martindale with lon assistants during the greater part of the last two months, the cost to the Society being for salaries and incidental expenses about \$1,150.

The experience of Mr. Martindale, with an able corps of visitors, and the cordial re-operation of the municipal authorities.

ness and accuracy of detail and ana nees and accuracy of defail and analysis, and their great value as a beats of moral and 'telegious' chort, we tenture to say, will scarcely find a parallel in the higher tery of similar catterprises in any city. It is much to be regretted that the proper limits of this report will only allow a brief allusion to some of the more prominent slatters presented in these schedules; but the Committee carnessiv recommend that the

also supplied making an aggregate of we went to bed in the front room; don't remember if Colvin went out before we one thousand copies at a coat of \$729 41, went to bed; drank water from o se pasi-

Hon. Mayor Chapsin and Detective Smith in procuring statistics in respect to some of the sources of vice and crime in the city, many of which could not otherwise have been reliably obtained. And it is especially gratifying and hopeful that our municipal affairs are to such an extent administered by men who appreciate the great truth that wan is a reproach to any people, and are making carnest, and in some degree effectual, efforts to arrest the progress of immorality among us. These statisties show in the city 38 manufactories of intercating drinks, whose monthly product of distilled and mixed liquors is 983 barrels, and of all McCounell before the light was struck, it was after lunch when I proposed to Colvin to so to Grawford's to search for his wife and beer 3,335 barrels. The number of ale and beer 5,331 barrels. The number of drinking salcons is 412, employing the time of 508 persons in salling, and their aggre-gate receipts from sales of drinks alone ac-the read was hal.

it is ascertained that the entire expenses of the T Roman churches in the city, with their various schools, or phan asylams, hospitals, &c., amount annually to about \$501. Egler boys be doing to day, or will they be \$600; and those of the 43 Protestant churches, including Sabbath schools, city totasions, and all church enterprises apportunity of the city, \$110,000; and of the Cleveland Orphan Asylam, \$5,000. If to the sum of all these there be added an equal amount of all these there be added an equal amount

sions, and all church enterprises apportaining to the city. \$110,000 and of the Cleve-land Orphan Asylum, \$5,000. If to the some of all these there be added an equal amount or the contributions of thesevatious church es, in their associated and individual caps os, to religious and benevolent oper one abroad, which for the average of them surely a large estimate, we have an ag-egate of \$570,000 expended annually for levation, and the social, moral and re does. And if we add to the above amount said for religious and benevolent purpose and interest on the public debt, which du ing the last year amounted to \$519,62 and no small part of which resulted more or loss directly from intemperance, as or less directly from intemperance, and therefore really belongs on the other side of the account.) We should still have an

aggregate of only about \$880,000, and but bittle more than one hulf the large amount of \$1,622,000, annually paid in saloons alone, for this most fruitful source of vice and stime. The romainder being dufficient to rebuild the entire number of fifty. churches in the city every year. Under the starting devalopments of this canvas; the question comes with great power, how can we hope to meet and evercome this nighty influence for avil in our midst, which so largely exceeds what we have thuar been onabled to accomplish for good. How can these desoluting streams of prison-and death be changed into the rivers of ife that shall fertilize and make glad the earden of the Lord. As Mozes cast the di-

Marsh, by whose influence those bitter waters were rendered sweet and healthful, o let us with new stal and earnestness apoly to these turbic waters the tree of his whose leares are for the healing of the unine, the bleased word of toot, the agency divinely appointed, and divinely sancturousd, in all ages and countries, for evating, ennobling and saving the race promise-"As the rain cometh down and the snow from heaven and returneth not thither, but waterett, the earth, and cause at to bring forth and bud that it may give seed to the sower and bread to the eater, a shall my Word be that goeth forth out ay mouth, it shall not return unto me void but shall accomplish that which I ple

UNION PATENT WOOD AND The Cheapest, most Beautiful and Life Insurance Company, Manufactured by the Union Fence Company of Painesville. T. W. MORSE, Agent, Sartwell's Block,

Those wishing to secure a policy in a rollable unpany, or to act as agents at a liberal compensa-in, will call or address the agent by letter. Justructed that it does not touch the ground, and there is no place where water can possibly be absorbed. Hence it will hart, at the lowest calendation, 75 years. The gates are made upon the most improved principle, and are contamental in the highest degree. The painted comments are all iron. By many this loner, when set, is taken to be composed emiredy of iron, so sity and substantial is in a appearance.

The stienthon of these wishing to improve the appearance of their front yards, and those contemplating building, in called to this feuree, new used in front of the dwellings of the following gouttemor of this city:
